Post Liberalisation Trend in Indian Banking

Mandira Sarma

Indian Council for Research on International Economic Relations (ICRIER)
Core 6A, India Habitat Centre, Lodi Road, New Delhi 110 003 India
mandira@icrier.res.in
Liberalisation of India’s banking sector

- Liberalisation of India’s banking sector begun since 1992, following the Narasimhan Committee’s Report (December 1991)

- Important recommendations of the Committee were –

  [i] reduction of statutory pre-emption (SLR and CRR)

  [ii] deregulation of the interest rates

  [iii] opening up the sector to foreign and domestic private banks

  [iv] adoption of prudential regulations relating to capital adequacy, asset classification and provisioning standards
Outline of this presentation

• An overview of the India’s commercial banking sector

• Performance indicators of India’s banking sector

• Some institutional features of India’s banking sector: SLR, CRR, priority sector lending, capital adequacy norms, ownership rules, interest rates, ....
# Structure of the Indian Banking system (March 2006)

Some institutional features of Indian banking

- Reserve (SLR and CRR) requirements
- Capital requirement
- Interest rate structure
- Priority sector lending
SLR and CRR

- SLR is an amount that a bank is required to maintain in the form of cash, gold and Government and other approved securities.

- At present, the SLR requirement is 25% of NDTL, the minimum limit prescribed in the Banking Regulation (BR) Act.

- CRR is an amount that a bank is required to hold in the form of cash with RBI. The current requirement is 7% of NDTL. (7.5% effective from November 10, 2007)
Capital requirement for domestic private banks

- Minimum Capital Requirement: Rs. 2 billion to start with, with a commitment to increase to Rs. 3 billion within 3 years of operation.

- Foreign investment: The aggregate foreign investment in private banks cannot exceed 74%.

- Capital adequacy norms – currently Basel I with CRAR requirement of 9%.

- Basel II norms will be implemented from March 2008 for internationally active banks and from March 2009 for domestic banks.

- Final guidelines for Basel II implementation was released in April 2007.

Priority Sector Lending

• Priority sector lending was introduced in 1968 in order to increase banks’ involvement in financing certain “priority sectors”.

• To start with, there were no specific targets fixed for priority sector, but in November 1974, banks were advised to raise the share of their priority sector lending to 33 per cent by 1979.

• In March 1980, this target was raised to 40 per cent.

• Presently, all domestic SCB have to comply with a 40 per cent target for the “priority sector lending”.

• For the foreign banks this target is 32 per cent.
The priority sectors are as follows:

→ **Agriculture**: 18 per cent sub-target for domestic banks, no target for foreign banks

→ **Small enterprises**: 10 per cent sub-target for both domestic and foreign banks, 40% sub-target for micro (manufacturing) enterprises with investment upto Rs. 5 lakh and 20% for micro (manufacturing) enterprises with investment above Rs. 5 lakh

→ **Export credit**: 12% sub-target for foreign banks. **For domestic banks it is not a priority sector.**

→ **Weaker sections of the population**: 10% sub-target for domestic banks; no target for foreign banks

→ **Retail trade**
→ **Micro Credit**
→ **Education loans**
→ **Housing loans**
Penalties for non-achievement of priority sector lending obligation

- Contribution by domestic banks to Rural Infrastructure Development Fund (RIDF) → The corpus of the RIDF is decided by Government of India every year. 50% of the corpus is be allocated among domestic banks having shortfall in priority sector lending. The rest 50% are allocated among the banks having shortfall in meeting the agricultural target of 18%.

- Contribution of foreign banks to Small Enterprises Development Fund (SEDF), or for any other purpose as may be stipulated by Reserve Bank of India from time to time.

- The interest rates on the banks’ contribution to RIDF or SEDF are fixed by the Reserve Bank of India.

Road map for presence of foreign banks in India

• On February 28, 2005, RBI released a road map for the presence of foreign banks in India.

• This has two phases:

  ★ Phase I → **March 2005 – March 2009**

  ★ Phase II → **April 2009 onwards**
• During Phase I:
  → foreign banks wishing to establish presence in India can either choose to operate through a branch presence or set up 100% wholly owned subsidiary (WOS).

  → foreign banks already operating in India will be allowed to convert their existing branches to WOS.

  → Acquisition of Indian private banks by foreign banks will be allowed in a phased manner, initially only in private banks identified by RBI for restructuring. Such acquisition will be in the range of 15-74%.

• In Phase II:
  → WOS of foreign banks will be treated on par with domestic banks.

  → WOS of foreign banks will be able to dilute their stake so that at least 26% of their paid up capital can be held by resident Indians.

  → foreign banks will be allowed, subject to regulatory approvals, to enter into merger and acquisition transactions with any Indian private bank subject to the overall investment limit of 74%.
Summing up

- The Indian banking system is growing in a robust manner.
- The Indian banking system complies with international standards of prudential regulation.
- The Indian banking system is opening up for entry of foreign banks.
- Despite the growth, Indian banking system is not entirely inclusive.
- There is good opportunities for the banking industry – domestic and foreign – for expansion to fill the gap.
Thank you
