

Dr. V Shunmugam

A renowned authority on economic research, commodity markets, and trade issues Dr. V Shunmugam, is the Chief Economist at Multi Commodity Exchange of India Ltd. (MCX).

Dr. Shunmugam was previously with the Foreign Agricultural Services, USDA at the US Embassy in Delhi. After developing an optimal plan for water use in the Sabarmati river basin, a Ford Foundation Research project on Natural Resource Economics at the Institute of Rural Management, Anand, Gujarat he joined USDA in 1998. At USDA he was responsible for analyzing and reporting developments in selected agricultural commodity's production, markets, trade and policy areas. He was also responsible for helping Indian importers find US suppliers for agricultural products leading to their introduction and increased export sales.

Dr. V Shunmugam also has extensive experience in analyzing existing government policies and predicting policy changes due to the changing environment and its potential impact on commodity markets and trade. His analytical skills have been valued by the Chief Economist of the USDA and the Administrator of the Foreign Agricultural Services Agency of the USDA to be unparalleled as documented in their certificates of appreciation.

Trained as a researcher in agricultural economics (a Ph.D in Agricultural Economics from the Indian Agricultural Research Institute New Delhi), Dr. Shunmugam is a gold medalist from the Tamil Nadu Agricultural University.
